

Oct.-24-11

Hi Deep and Adam,

I wanted to send you this brief note just to tell you how happy we are with the re-design of our www.affinitybiologicals.com website.

As the point person in charge of this re-design on our end, I had little experience with web design and the overall process involved. Deep and the entire staff at FPM3 were very helpful and always there to answer any questions or concerns I had. From concept to finished product, they took the time to build the site for “Affinity” and made sure we were happy with the overall package before we went live.

Now that our new site is up and running we have had many positive comments from our customers and we are seeing a huge increase in web traffic and online inquiries.

Thank you FPM3 on a job well done!

Warm Regards,

Greg Fullerton
Manager, Marketing & Sales
